### Fatal Vehicle-Pedestrian Crash Under Investigation

On October 17, 2025, at approximately 7:35 p.m., Corvallis Police Department officers responded to a report of a vehicle-versus-pedestrian crash at the intersection of NW Harrison Boulevard and NW 14th Street.

A westbound Toyota RAV4, operated by a 17-year-old female, struck two pedestrians who were crossing southbound in the crosswalk on the west side of NW 14th Street.

Tragically, one pedestrian—a 20-year-old male—was pronounced deceased at the scene. The second pedestrian, a 20-year-old female, sustained serious injuries and was transported by the Corvallis Fire Department to Good Samaritan Regional Medical Center for treatment.

The driver remained at the scene and is cooperating with investigators. Members of the Corvallis Police Department Crash Investigation Team are actively investigating the incident.

At this time, the names of those involved are being withheld pending appropriate notifications and further investigation. Additional information will be released as it become available by the Corvallis Police Department.

Anyone who witnessed the crash or has information relevant to the investigation is asked to contact Detective Pete Dunn at the Corvallis Police Department. (541-766-6924)
