

A new transit center is coming to east Salem!

Cherriots is planning a new transit center to meet the growing transportation needs of people who live, work, study, and visit east Salem. The new facility will be a larger, dedicated transit center designed to enhance transit connectivity, improve accessibility, strengthen safety and security, and provide a more comfortable and reliable passenger experience.

The first step of the project is identifying potential transit center sites and studying how they could best serve the community. We invite you to learn more about the project, engage with the project team, and provide your feedback during this important phase:

Learn more and provide your input

Join us for a project open house:

Thursday, April 16 | 5:00 p.m. – 7:00 p.m.

Chemeketa Community College
Building 2 (adjacent to existing transit center)
4000 Lancaster Dr NE
