Date: 04-07-2026
Release Date: At Will
Contact: Fire Prevention Office

Central Douglas Fire & Rescue to Conduct Hydrant Flushing and Testing

Starting Monday, May 4th, and continuing until the task is completed, Central Douglas Fire & Rescue firefighters will flush and maintain fire hydrants in their service area. This includes the communities of Dixonville, Green, Melrose, Winchester, Wilbur, Winston, Garden Valley, and Umpqua, as well as the unincorporated areas of the City of Roseburg. The testing will be conducted from 9:00 a.m. to 3:00 p.m., Monday through Thursday, and 9:00 a.m. to 12:00 p.m. on Friday. During this process, water discoloration may occur depending on how severe the sediment in the water mains is, but rest assured, the water is safe to drink. The water purveyor(s) will issue a boil alert if the water is unsafe to drink. If you experience issues with your water during this time, please run water through your faucets until it clears.

If you have any questions or want more information about fire hydrant flushing and testing, contact our department at fireprevention@cdfs-or.gov
