## **Klamath Falls Man Pleads Guilty to Illegally Distributing Explosive Devices**

MEDFORD, Ore.—A Klamath Falls, Oregon, man pleaded guilty on Monday for illegally distributing explosive devices, announced U.S. Attorney Scott E. Bradford for the District of Oregon.

Jason Edward Lowery, 52, pleaded guilty to distribution of explosives by a non-licensee.

According to court documents, in June 2025, Lowery sold multiple illegal M-type explosive devices at his residence and at his place of business in Klamath Falls. Pursuant to a search warrant at Lowery's residence, business, and vehicle, investigators seized over 200 homemade explosive devices and materials for constructing more explosives. Police seized a destructive device that had a large amount of explosive powder and nails strapped to it. At Lowery's residence, police also seized firearms and methamphetamine. Lowery's phone revealed texts showing he was selling devices to multiple individuals.

On July 17, 2025, a federal grand jury in Medford returned a two-count indictment charging Lowery with distribution of explosives by a non-licensee and manufacture of explosives by a non-licensee.

Lowery faces a maximum sentence of 10 years in prison, a \$250,000 fine, and three years of supervised release. He will be sentenced on October 8, 2026, before a U.S. district court judge.

As part of the plea agreement, Lowery has agreed to forfeit any criminally-derived proceeds and property used to facilitate his crimes identified by the government prior to sentencing.

The Bureau of Alcohol, Tobacco, Firearms and Explosives and Oregon State Police are investigating the case. Assistant U.S. Attorney Judith R. Harper is prosecuting the case.
