Clatsop County Announces Onsite Septic System Review Fee Increase Effective July 1

CLATSOP COUNTY, OR. — The Clatsop County Board of Commissioners adopted an updated County Fee Schedule during its June 10, 2026, meeting, which includes an increase to the fee for onsite septic system permit applications and evaluations.

Beginning July 1, 2026, the fees for onsite septic system permit and evaluation applications will increase along with the Oregon Department of Environmental Quality permit surcharge fee. The revised fees will apply to all applicable permit applications submitted on or after that date.

The updated fee schedule reflects the County's ongoing efforts to align service fees with program costs and administrative requirements.

For additional information, please contact Gail Henrikson at 503-325-8611 or ghenrikson@clatsopcounty.gov.
