“We so appreciate what you do for our kids. Some families would NEVER have their kids’ eyes tested if it weren’t for your screenings.”

~Deanna G.

In 2011, Oregon was ranked #48 in the U.S. in high school graduation rate - at that time, OLSHF invested in state of the art vision screening equipment to bolster Lions effort of referring Oregon students for comprehensive eye exams.

Today, Oregon has it's highest graduation rate ever and with your help, even more Oregon children will learn to their full potential.
